

96-Well PCR Plate, Skirted, Low Profile, White

Product Highlights

- Approximate maximum capacity for all 96-well plates is 350 µl for standard height plates, or 200 µl for lowprofile plates
- Holes on sides for robotics handling
- Highly-visible printed matrix
- Certified RNase, DNase, DNA and Pyrogen-free
- Opaque white plates available for qPCR
- PCR Inhibitor free
- _

More informations about 96-Well PCR Plate, Skirted, Low Profile, White

Starlab Skirted 96- and 384-Well PCR Plates feature a 15 mm high full skirt around the complete plate edge. The skirt provides an extremely high plate stability, which is beneficial specifically in automated "High-Throughput" applications. These type of plates offer the largest area for marking on edge of the plates e. g. by barcodes. Starlab Skirted PCR Plates are available in standard or low profile format.
